The Science of Service Systems Haluk Demirkan 2011-04-20 The Science of Service Systems intends to stimulate discussion and understanding by presenting theory-based research with actionable results. Most of the articles focus on formalizing the theoretical foundations for a science of service systems, examining a wide range of substantive issues and implementations related to service science from various perspectives. From the formal

(ontologies, representation specifications, decision-making and maturity models) to the informal (analysis frameworks, design heuristics, anecdotal observations), these contributions provide a snapshot in time of the gradually emerging scientific understanding of service systems. The Science of Service Systems, along with its companion text, Service Systems Implementation, is designed to present multidisciplinary and multisectoral perspectives on the nature of service systems, on research and practice in service, and on the future directions to advance service science. These two volumes compose a collection of articles from those involved in the emerging area known as service science.

Post-war Architecture between Italy and the UK Lorenzo Ciccarelli 2021-10-14 Italy and the UK experienced a radical re-organisation of urban space following the devastation of

many towns and cities in the Second World War. The need to rebuild led to an intellectual and cultural exchange between a wave of talented architects, urbanists and architectural historians in the two countries. Post-war Architecture Between Italy and the UK studies this exchange, exploring how the connections and mutual influences contributed to the formation of a distinctive stance towards Internationalism, notwithstanding the countries' contrasting geographic and climatic conditions, levels of economic and industrial development, and social structures. Topics discussed in the volume include the influence of Italian historic town centres on British modernist and Brutalist architectural approaches to the design of housing and university campuses as public spaces; post-war planning concepts such as the precinct; the tensions between British critics and Italian architects that paved the way for British

postmodernism; and the role of architectural education as a melting pot of mutual influence. It draws on a wealth of archival and original materials to present insights into the personal relationships, publications, exhibitions and events that provided the crucible for the dissemination of ideas and typologies across cultural borders. Offering new insights into the transcultural aspects of European architectural history in the post-war years, and its legacy, this volume is vital reading for architectural and urban historians, planners and students, as well as social historians of the European post-war period.

The Laughing Monsters Denis Johnson
2014-11-04 Denis Johnson's New York Times bestseller, *The Laughing Monsters*, is a high-suspense tale of kaleidoscoping loyalties in the post-9/11 world that shows one of our

great novelists at the top of his game. Roland Nair calls himself Scandinavian but travels on a U.S. passport. After ten years' absence, he returns to Freetown, Sierra Leone, to reunite with his friend Michael Adriko. They once made a lot of money here during the country's civil war, and, curious to see whether good luck will strike twice in the same place, Nair has allowed himself to be drawn back to a region he considers hopeless. Adriko is an African who styles himself a soldier of fortune and who claims to have served, at various times, the Ghanaian army, the Kuwaiti Emiri Guard, and the American Green Berets. He's probably broke now, but he remains, at thirty-six, as stirred by his own doubtful schemes as he was a decade ago. Although Nair believes some kind of money-making plan lies at the back of it all, Adriko's stated reason for inviting his friend to Freetown is for Nair to meet Adriko's fiancée, a grad

student from Colorado named Davidia. Together the three set out to visit Adriko's clan in the Uganda-Congo borderland—but each of these travelers is keeping secrets from the others. Their journey through a land abandoned by the future leads Nair, Adriko, and Davidia to meet themselves not in a new light, but rather in a new darkness. *Critical CALL – Proceedings of the 2015 EUROCALL Conference, Padova, Italy* Francesca Helm 2015-12-02 The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not

called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

Lateral Cooking Niki Segnit 2019-11-05 A groundbreaking handbook--the "method" companion to its critically acclaimed predecessor, *The Flavor Thesaurus*--with a foreword by Yotam Ottolenghi. Niki Segnit used to follow recipes to the letter, even when she'd made a dish a dozen times. But as she tested the combinations that informed *The Flavor Thesaurus*, she detected the basic rubrics that underpinned most recipes. *Lateral Cooking* offers these formulas, which, once readers are familiar with them, will prove infinitely adaptable. The book is divided into twelve chapters, each covering a basic culinary category, such as "Bread," "Stock, Soup & Stew," or "Sauce." The recipes in each chapter are arranged on a continuum, passing from one to another with just a tweak or two to the

method or ingredients. Once you've got the hang of flatbreads, for instance, then its neighboring dishes (crackers, soda bread, scones) will involve the easiest and most intuitive adjustments. The result is greater creativity in the kitchen: *Lateral Cooking* encourages improvisation, resourcefulness, and, ultimately, the knowledge and confidence to cook by heart. *Lateral Cooking* is a practical book, but, like *The Flavor Thesaurus*, it's also a highly enjoyable read, drawing widely on culinary science, history, ideas from professional kitchens, observations by renowned food writers, and Segnit's personal recollections. Entertaining, opinionated, and inspirational, with a handsome three-color design, *Lateral Cooking* will have you torn between donning your apron and settling back in a comfortable chair.

Saving Rome Megan Williams 2006-01-01 In her debut collection, Rome-based writer and correspondent Megan K. Williams serves up the Eternal City as you've never seen it before, turning an insider's eye on the love, mystery and unholy chaos of Rome. In nine funny and insightful stories, Williams delves into the lives of women searching for meaning (and survival) in an ancient metropolis awl in honking Fiats, smouldering cigarettes and teetering high

heels. Piercing, quirky, hilarious and heartbreaking, Saving Rome's women are trapped in a new-millennium Roman circus sideshow. One follows her husband to Italy only to become obsessed with an eccentric pet-shop owner. Another, a rattled mother, gives a carabinieri officer the finger over a parking dispute, and is horrified when he trails her home. Not to mention the jilted innamorata who pushes her tour-guide host to the thin edge of sanity.

Event and Result Nominals Chiara Melloni 2011 The syntax and semantics of deverbal action nominals, notoriously ambiguous between event and result interpretation, have been a thought-provoking issue in many areas of theoretical

linguistics. This volume contributes to current work on this topic by showing how the analysis of these nouns can benefit from a morphological and lexical-semantic treatment.
 While being a revealing synthesis of a number of formal accounts on this popular research domain, this study specifically targets the largely unexplored area of result nouns and addresses several crucial issues. What are result nouns in a strictly lexical-semantic perspective? Why do some verb classes allow ambiguous event/result nominal correlates, while others do not? What are the relevant verbal features involved in result noun formation? Is there a range of predictability in the number and types of meaning conveyed by a derived nominal?
 Couched within a framework of decompositional lexical semantic, the analysis offers original formal solutions to the polysemy issues arising in this word formation domain and

convincingly argues in favor of the semantic alignment between the morphologically simplex and complex lexicon. A compelling range of Italian data provides empirical support to the author's claims.

Lost Hearts in Italy Andrea Lee 2007-05-22 The Italian phrase Mai due senza tre—"never two without three"—forms the basis of Andrea Lee's spellbinding novel of betrayal. Sophisticated and richly told, *Lost Hearts in Italy* reveals a trio caught in the grip of desire, deception, and remorse. When Mira Ward, an American, relocates to Rome with her husband, Nick, she looks forward to a

time of exploration and awakening. Young, beautiful, and in love, Mira is on the verge of a writing career, and giddy with the prospect of living abroad. On the trip over, Mira meets Zenin, an older Italian billionaire, who intrigues Mira with his coolness and worldly mystique. A few weeks later, feeling idle and adrift in her new life, Mira agrees to a seemingly innocent lunch with Zenin and is soon catapulted into an intense affair, which moves beyond her control more quickly than she intends. Her job as a travel writer allows clandestine trysts and opulent getaways with Zenin to Paris, Monte Carlo, London, and Venice, and over the next few years, now the mother of a baby daughter, she struggles between resisting and relenting to this man who has such a hold on her. As her marriage erodes, so too does Mira's sense of self, until she no longer resembles the free spirit she was on her arrival in the on her arrival in the Eternal

City. Years later, Mira and Nick, now divorced and remarried to others, look back in an attempt to understand their history, while a detached Zenin assesses his own life and his role in the unlikely love triangle. Each recounts the past, aided by those witness to their failure and fallout. An elegant, raw, and emotionally charged read, *Lost Hearts in Italy* is a classic coming-of-age story in which cultures collide, innocence dissolves, and those we know most intimately remain foreign to us.

Lexical Creativity, Texts and Contexts Judith Munat 2007-11-06 The coining of novel lexical items and the creative manipulation of existing words and expressions is heavily dependent on contextual factors, including

the semantic, stylistic, textual and social environments in which they occur. The twelve specialists contributing to this collection aim to illuminate creativity in word formation with respect to functional discourse roles, but also examine 'critical creativity' determined by language policy, as well as diachronic phonetic variation in creatively-coined words. The data, based either on large corpora or smaller hand-collected samples, is drawn from advertising, the daily press, electronic communication, literature, spoken interaction, cartoons, lexical ontologies and style guides. Each study analyses novel formations in relation to their contexts of use and inevitably leads to the crucial question of creativity vs. productivity. By focussing on creative lexical formations at the level of parole, these studies provide insights into morphological theory at the level of langue, and ultimately seek to explain lexical creativity as a function of language use.

The Art of Commedia M. A. Katritzky 2006
Italian comedians attracted audiences to performances at every level, from the magnificent Italian, German and French court festival appearances of Orlando di Lasso or Isabella Andreini, to the humble street trestle lazzi of anonymous quacks. The characters they inspired continue to exercise a profound cultural influence, and an understanding of the commedia dell arte and its visual record is fundamental for scholars of post-1550 European drama, literature, art and music. The 340 plates presented here are considered in the light of the rise and spread of commedia stock types, and especially Harlequin, Zanni and the actresses. Intensively researched in public and private collections in Oxford, Munich, Florence, Venice, Paris and elsewhere, they complement the familiar

images of Jacques Callot and the Stockholm Recueil Fossard within a framework of hundreds of significant pictures still virtually unknown in this context. These range from anonymous popular prints to pictures by artists such as Ambrogio Brambilla, Sebastian Vrancx, Jan Bruegel, Louis de Caulery, Marten de Vos, and members of the Valckenborch and Francken clans. This volume, essential for commedia dell arte specialists, represents an invaluable reference resource for scholars, students, theatre practitioners and artists concerned with commedia-related aspects of visual, dramatic and festival culture, in and beyond Italy."
